There is an avenger in this story, who may also be a victim, and a waterdog who is the one who does in the one who hates.

We who know about the waterdog know that this hatred may be a legitimate reason for the waterdog's act of killing; but knowing the waterdog, we know also that he may just be using this as an excuse for killing someone.

The waterdog repeated his words, so that it would be known that he meant what he said:

Bluejay Story

“Then indeed, may he not live another year, the one who hates me.”

Some Karuk people were living at a place along the Klamath River in Northwest California. Some of the people lived alone. Once a person who lived by herself got sick.

Then the waterdog said, "Let's bite the heart out of this person, of the one who hates me. Then, indeed, he will not live another year, the one who hates me."

The one who saw the waterdog knew about the waterdog's power; he knew he had the power to do somebody in. He told the waterdog:

“Indeed, I know about you in the center of the sky, you who are a large waterdog.”

Bluejay lived there too. She was a doctor and a sorcerer. When the people went to ask Bluejay to come and doctor the sick one, Bluejay surprised them. She told them she was sick herself. They could see she was hurting because there were ashes on her, and ashes were put on the sick when they were being doctored.

Even though Bluejay was hurting, she went to doctor. When she got to the person's house, the sick woman was lying there. To doctor her, Bluejay had to remove an object from her body. A devil had used sorcery to put the object in the person to make her sick.

Then they started to doctor. They started to sing. Bluejay was trying very hard. She doctored the sick one by sucking on her.

In the center of the sky there was a large waterdog.

Sometimes it happened that a Karuk person wanted to do somebody in. His motive might be revenge, or self-defense, or he might have had another motive. We don't know. Perhaps the old people knew.

The old people, our grandparents, knew the words to say, and they told the words to us.

When we read this story, we are not sure who is saying what to whom. We only know that somebody saw a waterdog, and told what he saw:

Bluejay removed the object that was used to devil the sick woman. Then she said she could feel someone thinking, "I wish the healed person would lie back down and be sick again." In fact, Bluejay was the one who was devilling her!

Now Bluejay said, "Give me acorns, already cracked, for pay." She wanted them already cracked because that way it was easier to make acorn soup.

Bluejay took the cracked acorns and left. When she arrived home, she put ashes on herself again, playing sick.

Surprise! At the center of the world, this is the way Indian God did.

When the person Bluejay had doctored got sick again, the people came to get Bluejay as before. Again she came, and acted the same way as before. Bluejay said the sick person was being hurt by the same devil, one who was thinking bad thoughts and making her sick.

Bluejay doctored by sucking
again. This time she asked for
hazelnuts for pay.

They gave Bluejay the hazel-
nuts, and then the sick person got
well. Bluejay once more returned
home.

Now you see how Bluejay acts! She pretends to be sick, to get higher pay for doctoring. She pretends to cure a sick person, when really her thoughts are making the person sick. And she gets more than one payment by curing the person and then making her sick again!

Indian god told this to the Karuk man so that the man would know the best way to hunt. Indian god wanted to help the Karuk man to kill the fattest deer, so that he would have enough food to feed his family.

“I will kill the best deer, while it is still early in the morning, and the sun is not yet high in the sky. This is the way I will succeed in killing the fattest deer.”

This story happened at the center of the world where the Karuk people live, in the Klamath River country. Karuk people have a god they call †KXURΔYU. He did many things, all according to the way that Indian gods are supposed to do. One time he did something that I am going to tell you about now.
